Summery

Full Stack Software Developer and Technical Team Lead experienced in building scalable web applications using Node.js, Express, Nest.js, Next.js, React, Laravel, and Django. Skilled in TypeScript, Redux, Tailwind CSS, and REST API design, along with managing PostgreSQL, MySQL, and MongoDB via Prisma ORM. Proficient in Docker and N8N AI automations. Currently leading engineering teams at GrowSoft, managing high-impact projects, ensuring quality delivery, and driving system architecture decisions.

My Skill Section

Programming Languages: TypeScript, JavaScript (ES6+), PHP, and Python
Backend Technologies: Node.js, Express.js, Laravel, Django, CodeIgniter, REST APIs
Frontend Technologies: React.js, Next.js, Redux, HTML5, CSS3, Bootstrap, Tailwind CSS, and Inertia.js
Database Knowledge: PostgreSQL, MySQL, MongoDB, and SQLite
ORM & Database Tools: Prisma ORM, Sequelize ORM, Mongoose, and Eloquent ORM
Technical Skills: Docker, Git, GitHub, Postman, N8N, CMS (WordPress, Shopify, Wix)
Languages: Bangla, English, Hindi, and Basic German
Personal Skills: Adaptability, Communication, Team Collaboration, Leadership, Problem Solving, and Prompt Engineering

Work Experience

Software Developer & Technical Team Lead – GrowSoft
February 2026 – Present

Currently working as a Senior Software Developer and Technical Team Lead, designing scalable system architecture, building robust Laravel backends, integrating APIs, and managing teams for high-impact software delivery.

- Designed system architecture and managed multiple live projects
- Led Laravel backend development with API integration
- Built scalable, high-performance backend services and REST APIs using Node.js.

Backend Developer & Team Lead – Rafusoft
October 2024 – January 2026

Worked as a Backend Developer and Team Lead, responsible for Laravel-based backend development, SQL database management, and leading a development team with focus on scalability, security, and smooth delivery.

- Developed secure and scalable Laravel backend systems
- Managed SQL database design and optimization

WordPress & Django Developer – Tech IT LLC
August 2023 – June 2024

Worked remotely as a developer focusing on WordPress and Python Django projects, delivering scalable web applications and customized e-commerce solutions with responsive design and dynamic functionalities.

- Built scalable web applications using WordPress and Django
- Developed responsive UI/UX with dynamic functionalities

Projects

OTT Platform – Team Lead & Backend Developer

Worked as Team Lead and Backend Developer, responsible for building and maintaining scalable backend systems and managing overall development workflow. Focused on API integration, database optimization, and ensuring smooth communication between frontend and backend systems.

- Developed and maintained scalable backend architecture
- Handled API integration and database optimization
- Led development team and managed project workflow

ERP Saas – Project Lead & Architect

Worked as Project Lead and System Architect, responsible for designing the complete system architecture and planning the full backend structure of the e-commerce platform. Focused on scalable design, secure development practices, and smooth coordination between all development phases.

- Designed full system architecture and backend structure
- Planned project workflow and technical roadmap
- Ensured scalability, security, and system performance

Education

Diploma in Computer Science – SSR Institute (2025)

Completed with CGPA 3.43, specializing in Backend Development using Django, Laravel, and Flutter for cross-platform application development. Gained hands-on experience in building scalable backend systems, API integration, and real-world project development with modern software engineering practices.

Diploma in Computer Science – Infra Polytechnic (2022)

Completed with CGPA 3.43, where I learned HTML, CSS, JavaScript, and Python, building a strong foundation in web development and programming. Developed multiple frontend projects and improved problem-solving skills through practical implementation and real-world coding practice

Others Information

Date of Birth: 15 December 2004
Nationality: Bangladeshi
Religion: Islam
Gender: Male
Permanent Address: Babugonj, Barishal, Bangladesh
